

BARBER SCISSORS

LIGHT WEIGHT, DURABLE BLADES

Professional

Household

SOZAN

with adjustable knob

SOZAN-H

150 mm size barber scissors with the special resin handles being used for aircraft including glassfibre durable to breakage, low and high temperatures and the features are also hygienic and light weight. The colors are available for black, gray and dark blue.

The professional blades are molybdenum and vanadium steel hardened and tempered by automatic control facility and finished by supreme long experienced experts. The sharpness and durability is superior than the other barber scissors. Household blades are carbon steel blades finished as above.

SOZAN

Features of professional barber scissors

Blades

High carbon stainless steel blades including molybdenum and vanadium steel. The average Rockwell is 57. The blades are only hardened and tempered in our modern kiln and the Rockwell is well kept as the handle and blade portions are not welded in high temperatures. The durability of sharp edges is proved about 2 or 3 times as compared with the usual professional barber scissors. The each blade is precisely finished one by one supreme craftsmen.

Handles

The plastic handles are made of the special resin that is unbreakable quality and lightness that we adopted the resin on the essential points. The resin has been tested -20 degree for the lower temperature and its injection molding is done by a sophisticated molding machine for rigid resin and precision. The handle colors are available to black, wine red, blue and yellow.

Durability and lightness

For about one year , our several barbers have so far co-operated the development and repeated the testing for the improvement and reached the present useful quality. The another feature is that the lightness of blades and handles will surely help barbers in long time jobs less fatigues of arms.

Patent

We have received the patent from the following countries.

USA NO.5086563

Canada No..9105916.2

U.K. No.9105916.2

Germany No..4114187

Austria No.A667/91

Spain No.9101559

Italy No.M1911U000239
